iShak Quattro
(4 Plate Shaker)

iShak Quattro

(4 Plate Shaker)

When it comes to platform shakers, what matters the most ultimately is their performance and their durability. Most manufacturers promise both of these things, but look closely and you'll notice how specifications are used as an excuse for performance. From low quality internal components and weak motors to excessively spread-out design, these devices are anything but a convenience for the user. The use of low-quality equipment especially the motor and a low orbital diameter results in improper mixing of solutions.

At Neuation, we pride ourselves on our R&D capabilities which inform our design and development decisions based on research into customer feedback and requirements. As a result, we are well-aware of the existing problems and try to develop specific solutions to address those problems. Equipped with a powerful and maintenance-free brushless DC motor, iShak Quattro performs efficiently even under high loads for thorough mixing. Additionally, the option to vary the parameter settings makes it a device suitable for a wide-variety of requirements.

Product Features

Brushless DC Motor For Quiet Performance And A Maintenance-free Long Life.

Microprocessor Controlled For Efficient Performance Even Under High Loads And Provides Last Run Feature For Added Convenience.

Variable Speed Setting From 200 To 1200 RPM

Variable Timer Setting Option Allows The User To Set The Timer From 1 To 999 Minutes Along With An Infinite Mode.

Orbital Diameter Of 3 MM

Non-slip Rubber O-ring Provides Firm Grip For Plate Holding

Product Features

Easy Access To All 4 Plates For Easy Loading And Unloading. Additionally, The Device Is Also Extremely Easy To Clean And Maintain Because Of This.

Pulse Mode Function With Run-pause-run Function Helps Achieve Thorough Mixing

Compatible With All Standard Skirted Microplates.

Digital Display

Specifications

Specifications	iShak Quattro
Motor Type	BLDC motor
Orbital Diameter	3 mm
Number of Plates	4
Speed Setting	200 to 1200 RPM
Timer setting	1 to 999 mins & infinite mode
Pulse Mode	Yes, programmable (30 to 90 secs)
Maximum volume	4x384x60 µl
Weight	5.4 kg
Inbuilt Counterbalance	Yes
Dimension (W X D X H)	343 x 195 x 88 mm
Display	Digital
